

KENNY WALTER

Software Engineer with experience in enterprise software development and management.

EXPERIENCE

Senior Software Engineer • Jun 2020 - Present
Neo Tech, Adelaide, SA

Develop and test Ecommerce system in NodeJS and React JS. At Neo Tech, I design software architecture and maintain the system.

Software Developer • Apr 2018 - Jun 2020
Algo Trading, Sydney, NSW

Developed and maintain the trading platform in Test Driven Development method. Delivered the projects on time and with attention to quality.

PROJECTS

Trading Bot - Oct 2021

This is the project I have done at Algo Trading. The bot helps traders to analyse the stock market movement.

Chat Bot - Oct 2021

This is open source chat bot to help developers to integrate it on their websites or React Native app.

Web design project - Oct 2021

The website that I designed and built for client as a freelance web developer. It is built on Wordpress.
